

## APPLICATIONS

This makes up the retaining wire rope. It is sleeved, looped and fitted with a thimble at one end, and the other end is brazed and ground smooth in the factory. It is available in galvanized steel. The wire rope is supplied with a fast link connector MR9. This wire rope can only be used for Tirsafe™ Horizontal Life Line.

## TECHNICAL CHARACTERISTICS

Breaking strength > 40 kN

## APPLICABLE STANDARDS

EN 795 B:2012  
EAC TC 09:2011  
CEN/TS 16415:2017 (3x150kg)
