

guard trac rental®

A simple and quick way to secure virtually any
surface area without penetration.

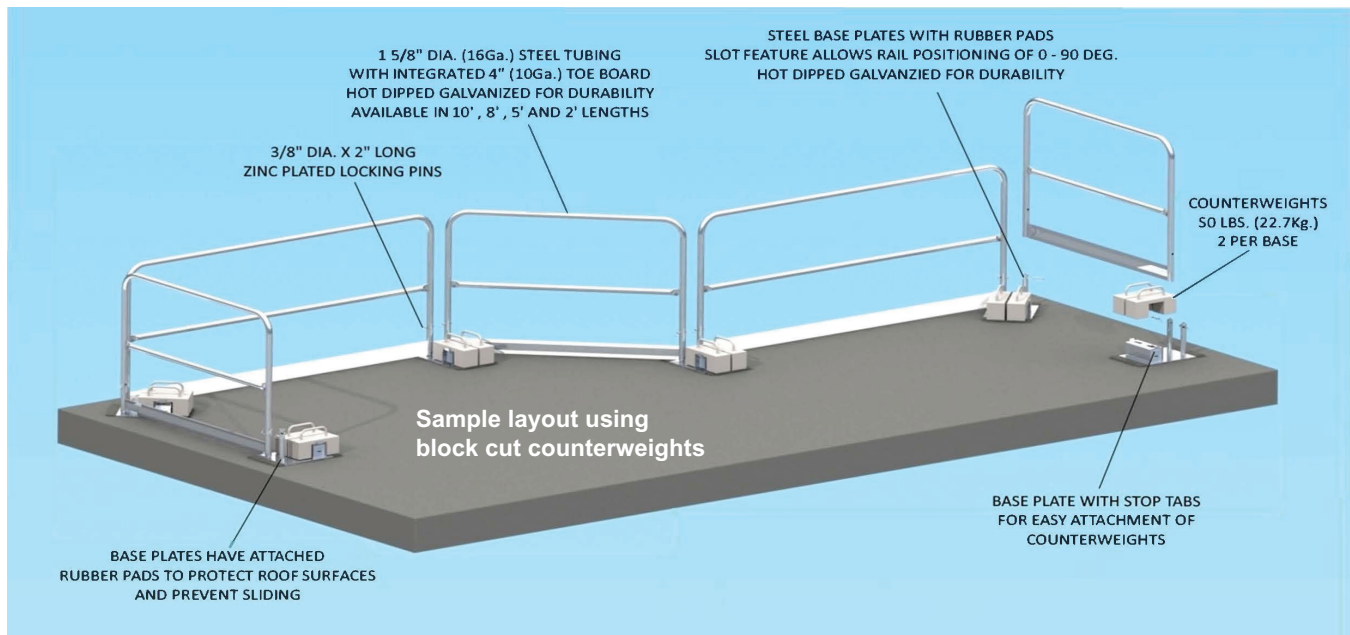

Portable and Non-Penetrating Guardrails

Ideal for Rental Applications

Easy to Install

No Drilling

No Tools Required

NON-PENETRATING GUARDRAIL

- No drilling required – roof waterproofing is not damaged
- No adjustments required – base pads come with anti-slip pads
- Galvanized 16 gauge steel – durable for construction and industrial workplaces

SAFETY ON JOBSITE

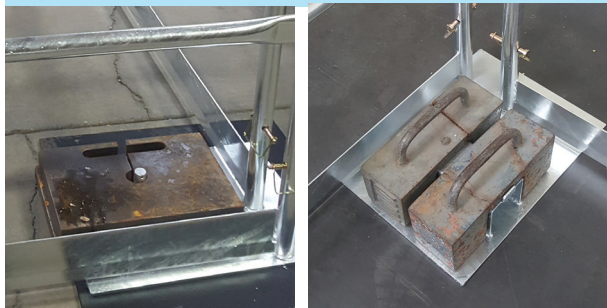

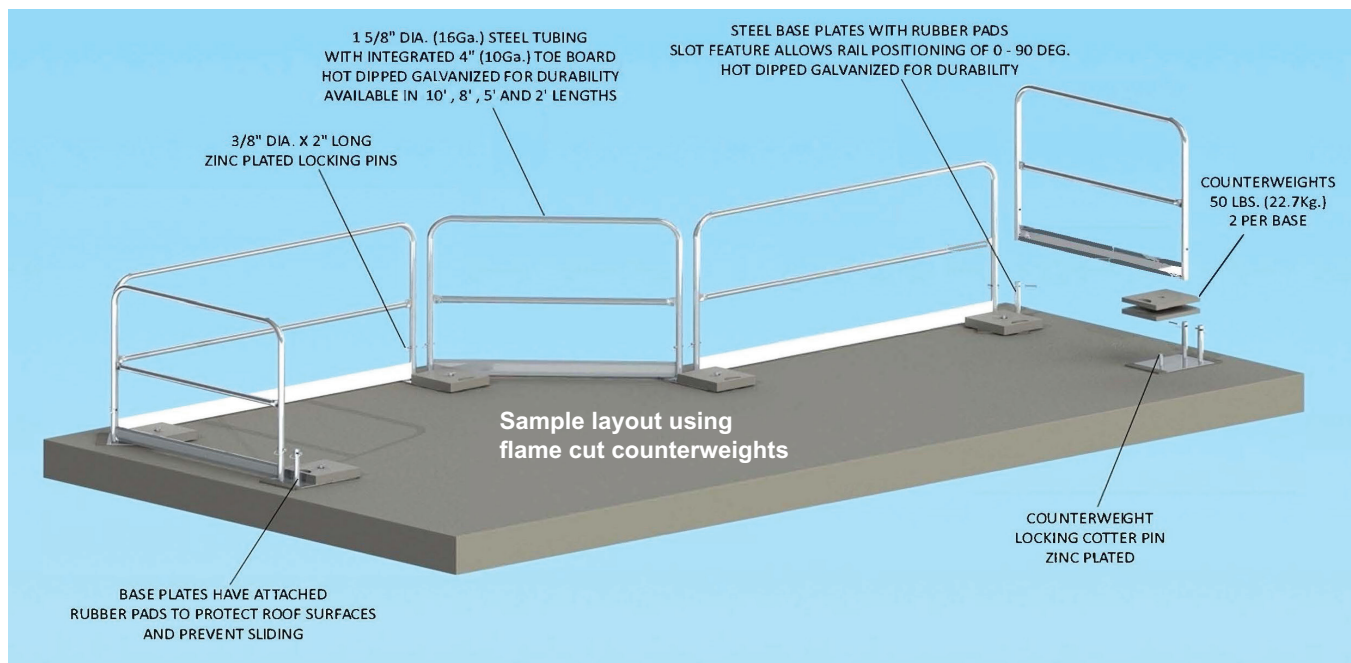

- Short counterweight base – reduces tripping hazard
- Engineered to exceed OSHA, Cal/OSHA and CSA Z259.18 Counterweighted guardrail systems
- Provide a safe work environment – no work stoppages or fines
- Added revenue per jobsite – faster return on investment
- Toeboard included for falling object protection

guard trac rental®

A cost-effective passive fall protection solution ideal for roof replacement, HVAC maintenance, plant shut-downs, short-term construction projects, and other temporary needs

RAPID INSTALLATION

- Quickly and easily installs to make jobsites safer – exceeds OSHA, Cal/OSHA and CSA
- Designed for use with your existing counterweights – saves inventory costs
- Limited number of components – no tools required easy to assemble
- Fully portable system designed to reuse from one location to another as needed
- Low cost installation – three workers can erect over 250 ft. (75 m) in an hour

USE EXISTING COUNTERWEIGHTS

- Two base styles available – use your existing counterweights – less inventory cost
- Designed specifically for rental applications to use with your existing portable counterweight system

Item	Description
401273	10' – guard trac rental® galvanized
401263	8' – guard trac rental® galvanized
401265	5' – guard trac rental® galvanized
401271	2' – guard trac rental® galvanized

502208	Flame Cut Base Plate Kit. (Includes 1 base, 2 rail pins, 1 cotter pin and 2 base pads)
502209	Block Cut Base Plate Kit. (Includes 1 base, 2 rail pins and 2 base pads)

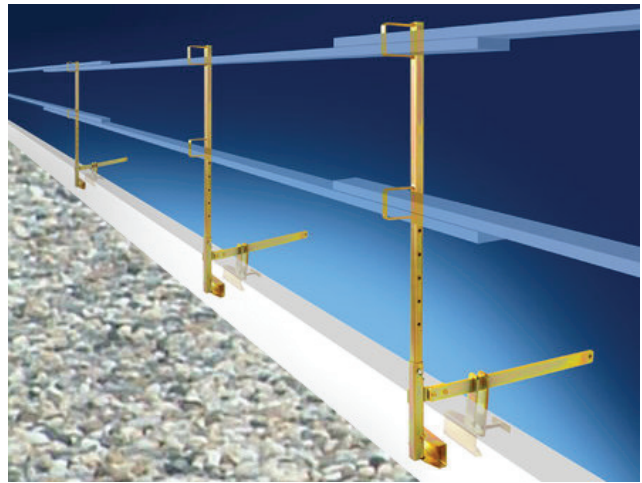

Replacement Parts	
100125	Rail Locking Pin 3/8 X 2-1/2 ZP
100126	Cotter Hairpin 1" DIA
100127	Pad for Base Plate (2 required per base)

paraclamp and versaclamp

Passive safety guardrail systems

Tractel® offers two types of passive safety guardrail systems. The paraclamp for attaching to building parapets and the versaclamp a highly versatile safety guardrail that can be used on parapets or concrete slabs. Both are a portable, cost-effective solution for temporary fall protection on rooftops.

- Simple and fast compression locking system, the fastest install time of any clamp in the market
- Adjustable guardrail post allows with guardrail heights of 42 in. (107 cm) when fully extended.
- Install at 8 ft. (2.4 m) increments
- Durable yellow zinc plated finish

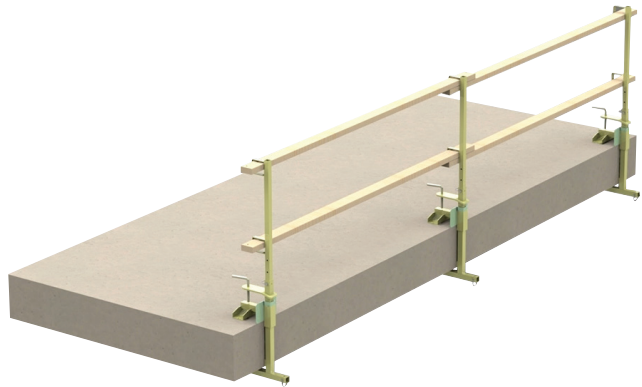

paraclamp

- Simple solution for parapet applications.
- Available in two sizes able to fit from 1 to 18 in. (2.5 to 45 cm) or 1 to 24 in. (2.5 to 60 cm) parapet widths.

versaclamp

- A versatile solution for parapet and concrete slabs applications.
- Expands from 2 to 16 in. (5 to 40 cm) or 2 to 22 in. (5 to 55 cm)

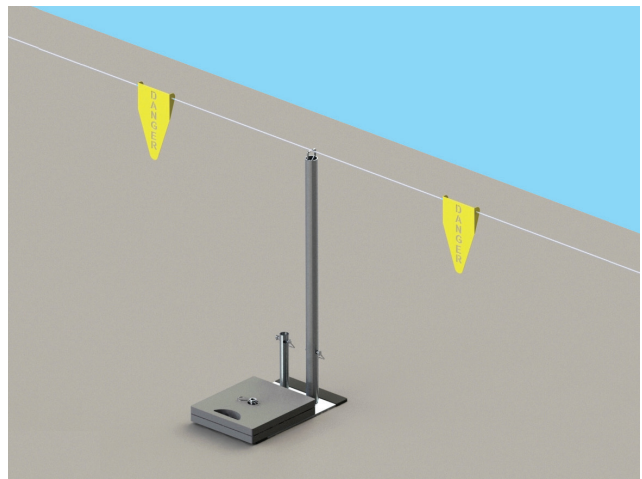

PART #	DESCRIPTION
500725	18 in. (45 cm) paraclamp
500728	24 in. (60 cm) paraclamp
500718	16 in. (40 cm) versaclamp
500719	22 in. (55 cm) versaclamp

T-stand

The T-stand is a portable warning line system that provides a high visibility warning to reduce accidents using bright yellow OSHA – rated flags

- Blend of portability, durability, and ease-of-use.
- Inexpensive and safe for “designated” work areas
- Fast and easy setup and take down
- Uses same base as the guard trac®

PART #	DESCRIPTION
401277	T-stand post 39" (1m)
500297	100 ft. (30.5m) Warning Line SST cable w/ Safety Yellow Flags
502208	Flame Cut Base Plate Kit - 50 lbs. (Includes 1 base, 2 rail pins, 1 cotter pin and 2 base pads)
502209	Block Cut Base Plate Kit - 55 lbs. (Includes 1 base, 2 rail pins and 2 base pads)
