

APPLICATIONS

- The cutting edge helmet combines advanced industrial safety standards with modern styling. It is equipped with our Micro Visor for optimal visibility and the Dry-Tech headband for comfortable day-to-day wear.
- Its high performance ABS material and creative design allow it to be operational at low temperatures (down to -40°C). Its lateral deformation capacity and exceptional strength-to-weight ratio make it a particularly robust and effective protective helmet.
- Fully removable and adjustable chinstrap with 4 anchor points approved to EN 397 or EN 12492 available for improved comfort and hygiene
- Dry-tech Premium headband: Allows 40% faster drying and absorbs 4 times more moisture
- Complies with the standard on antistatic / explosive atmospheres (IEC 6000079-32)
- Premium rack and pinion fastening system for a secure helmet fit.
- High visibility reflective sticker for better visibility in low light conditions

DESCRIPTION

Casque haut visibilité orange ou jaune équipé d'une jugulaire 4 points est d'une visière courte particulièrement bien adaptée pour les travaux en hauteur.

TECHNICAL CHARACTERISTICS

Material :

- Acrylonitrile butadiene styrene (ABS)
- Bare weight: 364g
- Size 51/ 63cm
- Micro Visor - 20mm
- Durable, heavy-duty tergal headpiece with six anchor points and Dry-Tech headband

APPLICABLE STANDARDS

- EN 397 :
- EN 50365 1000 V AC, coque sans ventilation uniquement, LD, MM, -40 °C
- ANSI/ISEA Z89.1-2014 Type 1 Classe C (Classe E), LT -40 °C
