

APPLICATION

The stopfor™ BF 150 kg is a sliding fall arrester as a new-generation, It can be used with 14 mm diameter stranded rope. The stopfor™ BF 150 kg is a new fall arrest concept. Unlike fall arresters implementing a jaw as locking system, the stopfor™ BF 150 kg eliminates the risk of mechanical blocking. Blocking is ensured by the body when an abrupt change of position occurs. For this reason, the unit is more ergonomic and compact than its competitors and slides easier on the rope with no excessive locking. The unit cannot be opened.

TECHNICAL CHARACTERISTICS

- Material: anodized aluminum
- Steel connector M10 + Lanyard PE 30 cm + 2 M10 steel +1 M 41 steel
- Designed for use with Tractel® polyamide stranded rope, 14mm diameter
- Bare weight : 175g

DESCRIPTION

The stopfor™ BF 150kg fall arrester is made of aluminum. This light weight, robust, ergonomic and compact device connects to all the fall arrest anchoring points on the harness. It can be connected to the latter using a type M10 connector or using a small 20cm lanyard.

The rope is easy and fast to set up.
