

APPLICATION:

The HT22 is designed for all operations where the user needs to use his fall arrester from the front (roofer, intervention on ladders). Easy to use harness, easy to adjust. HT22 with orange vest. The high-visibility vest, in fluorescent orange, always makes the wearer visible and in all weathers thanks to the retro-reflective warning strips. This is especially important in poor working conditions, both inside and out: night or darkness, challenging weather, nature of the environment.

FEATURES:

It is equipped with:

- 1 dorsal anchor point, 1 sternal anchor
- Quick adjustment of the straps
- Strap closure with flats buckles
