Compliant with the card  
CNB/P/11.062

stopfor™ range

blocfor™ range

Lanyards range

Tractel® fall protection PPE is intended for working at height, where there is a risk of falling vertically, as well as for working at height on a horizontal surface, where there is a risk of falling over a sharp edge (roof terrace use.)

Therefore, our ranges blocfor™\*, stopfor™\* and lanyards\* are certified according to the sheets:

**CNB/P/11.060 (for the blocfor™ range)**

**CNB/P/11.074 (for the lanyards range)**

**CNB/P/11.075 (for the stopfor™ range)**

Tractel® products are tested to stop the fall of a person, including safety equipment and tools, weighing up to 150 kg.

Product testing on sharp edges.
